RENEWABLE ANNUALLY FOREVER!**

Thank you for choosing Rust Check, the best protection for the second largest expenditure most people make, their vehicle. Rust Check has been time tested and proven for over 40 years.

This warranty applies to vehicles only after inspection and written approval by a Warranty Approved Location and providing that your vehicle is less than three model years old. (Further exclusions may apply dependent on geographical location. Please see dealer for details.)

This warranty covers your vehicle forever, provided Rust Check is reapplied each year by a Warranty Approved Location.

TERMS

1. Provided that Rust Check has been reapplied annually to the vehicle by a Warranty Approved Location, within 13 months of the last application, Rust Check warrants that it will repair AT ITS COST all original body panels from the window sills down which have rusted through from the inside out.

2. *THE FOLLOWING CONDITIONS APPLY:*

Damaged Vehicles

- If your vehicle is involved in an accident you must contact a Warranty Approved Location within 30 days in order to receive instructions on re-application to the damaged area of your vehicle. In the event that Rust Check in its discretion considers the damage extensive or the repairs inferior, it may cancel this warranty in part or in full. Failure to reapply Rust Check in these circumstances voids this warranty.

- Rust Check limits its costs of repairs or replacement to the current wholesale cash value of the vehicle. If a warranty claim is made, Rust Check has the option to supply the repair facility of Rust Check's choice.
- Claims must be made in writing within a maximum of 12 months of the last application of Rust Check on your vehicle, by a Warranty Approved Location.
- The customer must maintain record of proof of application. These records are the Warranty Document, the Invoice and Preventive Rust/Corrosion Report for each application as determined necessary by the terms of this warranty. These documents are available only at Warranty Approved Locations. The customer should ensure that the applicator is so authorized and can provide such documentation. All such documentation MUST be presented at the time the claim is made.
